## OUR PRODUCTS:-

WE HAVE LATEST VERITY OF VARIOUS COMBINATION'S FROM WHICH GUEST OPT 01 COMBINATION FOR HIS OWN, WHICH SUITES HIS STYLE, CLASS & COMFORT AS PER HIS STANDARD OF LIVING.

OUR MAIN AIM IS TO PROVIDE GUESTS, A COMFORTABLE SMOOTH RIDE JURK FREE, TRAVELING WITHOUT HESITATION, A SOOTHING ATMOSPHERE, HIGHEST SAFETY WHILE MOVING IN A LIFT.

AS A MANUFACTURE WE FULL FILL THE MARKET DEMAND IN WHICH PEOPLE REQUIRED DIFFERENT VERTICAL TRAVELLING SYSTEMS TO FULL FILL THEIR DIFFERENT DEMANDS LIKE MENTIONED BELOW

#### OUR PRODUCT'S SPECIALITY:-

AS **EXCELLENT ELEVATORS** USE QUALITY PRODUCTS AS PER INTERNATIONAL STANDARDS, THESE PRODUCTS CONSUME LESS ENERGY, PROVIDE SMOOTH OPERATION DUE TO HIGH-END MECHANISM WE USE, OUR WORKING MOVE'S AROUND LATEST INNOVATIVE CONCEPT'S WHICH PRODUCE LOW LEVEL OF NOISE & OUR COMMUNICATION SYSTEMS HAVING CLEAR CRYSTAL VOICE QUALITY TO UNDERSTAND THE WORDING'S OF HUMAN ACCORDINGLY TO HELP AT ANY TIME.

#### GOODS & PASSENGER ELEVATORS AS PER BELOW:-

1. ELEVATOR'S AUTOMATIC WITH MACHINE ROOM (MR)
2. ELEVATOR'S AUTOMATIC WITH MACHINE ROOM LESS (MRL)
3. ELEVATOR'S MANUAL DOOR
4. ELEVATOR'S CAPSULE
5. ELEVATOR'S HOME
6. ELEVATOR'S HOSPITAL
7. ELEVATOR'S GOODS
8. ELEVATOR'S CAR, AUTOMOBILES & INDUSTRIAL
9. ELEVATOR'S DUMB WAITERS
10. ESCALATOR'S

## ABOUT COMPANY PROFILE

**Excellent Elevators** Hereby Take This Opportunity To Introduce Our Self As A Leading Manufacturer, Installer And Annual Maintenance Service Provider Along With Modernization of Passenger Lifts. We Provide Tailor-made Arrangements To Our Guest / Clients, As Per Their Liking & Vision, Accordingly, We Escort Them From The Beginning Till End, Process Follow Through By Some Specific Steps Like Designing Approval From Guest, Manufacturing, And Installation Of Lift On Specific Site.

As A Company, We Help Our Guest In Their Decision-making Which Product Are More Comfortable For Them In Term Of Future Utilizations & More User Friendly For Senior Citizens Along With Kids. We Provide Plenty Of Suggestions Along With Best Options To Make Their Own Product With Lots Of Permutation Combination

This Mingal Makes Our Work More Easier & For Guest More Comfortable To Understand Things In A Better Way To Koop Up With Them In Long Lasting Relationship & This Can Only Possible Due To Our Simple & Straight Forward Approach To Guest With All The Options In One Short In Clear & Crystal Way. This Strategy Makes Us More Trustworthy Associate With The Guest.

We Are Adaptable & Flexible For The Latest Technologies & Using Them To Improve Our Performance To Grow Fast In Field Of Technologies & By Implementing Latest World Wide Technologies We Are Building Better Products For Our Guest Through Using Them In Appropriate Manner.

In Every New Installation, **Excellent Elevators** Committed To Provide 01 Year Free Maintenance Service Through Company, Rest After That We Have Different Maintenance Packages Available For Guest To Opt Any One Package For The Appropriate Take Care Of Lift As Per Our Mutual Comfort Level.

**Excellent Elevators** Are Committed To Provide High End Quality Designing In Terms Of Cabins With Different Quality & Colours of Steel, To Enhance Ambience Of Your Products. Our Trp Is To Provide After Sales Services On Intact Timings Without Any Guest Reminders, Rest For Even Odd Hours Our Emergency Team Is Always Ready To Guide Or To Help You Out In Any Case Of Emergency.

**Excellent Elevators Are Serving In This Highly Skilled & Professional Field With The Approval Of Labour of Ministry Government Of India, Working As Licensed Government Electrical Contractor. Our Company is GST Approved & MSME Registered.**

**Excellent Elevators** Are Highly Professional In Terms Of Services & Commitments of Serving The Best In Each Financial Slabs, We Have Our Existance Pan India For Any Elevator & Escalator Job. We Don't Do Any Compromises In Quality & Services.

**Excellent Elevators** Having Broad Vision Of Serving Guest With Best Quality Products, Which Having At Least Age of 10 Years Because Our Product Not Allow Us To Make Any Substandard Product Because Its A Sin For **Excellent Elevators** Which Bill Be Pain Full For Guest & Ruined Our Prestige & Reputation.

Numbers Are Just Digits For Us We Have Our Good Establishment In Lobby Of Some Good Renowned Builders, Hospitals & Corporate Houses.

For Serve The Best To Our Guest & Customers, Our Back End Research & Development Team Always Active In Market To Search Out Something Best & Latest In Terms Of Technology In Competitive Pricing.

**We Specialized In Lift Designer Cabins For Passenger Lifts**, Which Is In High Demand In Hotels, Banquets, Party Halls & Residence Cabins Along With Designer Landing Operating Panels & Cabin Operating Panels Of All Categories Like Touch Or Push Buttons

Marketing Team Are Taking Care Of All The Pipeline Queries & To Interact With The Guest & Will Be In Touch With Them Till The Projects Of Installation Work Get Done & Handover To Guest After That Customer Support Team Will Take Care Of The Guest For The Further Annual Repair & Maintenance.

Our 01 Unit Of Dedicated Customer Support Team Are Taking Care of All Repair & Maintenance Jobs On Time For Delhi Ncr

We Follow Government Guidelines & Nom's To Provide Full Safety To Our Guest.

## ELEVATORS WITH MACHINE ROOM

A high-performance elevator solution with a small machine room for mid and high-rise buildings. **EXCELLENT ELEVATORS & ESCALATORS**, are ideal for passenger transportation in offices, hotels and residential buildings. It features a broad range of interior options, superb ride comfort and excellent eco-efficiency. Designed to meet the needs of mid range buildings and the needs of all segments be it Residential, Commercial, Retail, Hotel or any specific building in the urban space, making cities better places to live in. Through innovation and futuristic technology the elevator solution offers a smoother and more powerful performance, warmer interfaces, smart operations, safe & comfortable rides and finer aesthetics. By offering a feature-rich experience to all those who enter the elevator, EXCELLENT ELEVATORS & ESCALATORS lifts creates a lasting impression among them

### Features:-

- Excellent eco-efficiency - hoisting technology, lighting and standby solutions for energy efficient operation. Super ride comfort - smooth and silent operation through the latest elevator technology and quality tests performed after each installation.
- Versatile design - a broad set of attractive materials and accessories to create the perfect interior for your elevator. Combination of unique textured, patterned and 3D effect wall materials with novel lighting solutions that creates a stunning visual effect.
- Better ride comfort - The V3F variable-frequency drive ensure a smooth, comfortable ride with superior acceleration / deceleration profile, better floor-to-floor travel times, and precision levelling.

Blower

Speed : 0.70-1.50 m/sec

Capacity : 4-26 Passengers

The machine room less elevator is the result of technological advancement that allows a significant reduction in the size of the electric motors used with traction equipment. Machine Room less elevators do not have a fixed machine room on the top of the hoist way, and thus saves much building's space. Machine room less elevators are designed so that most of the components fit within the shaft containing the elevator car and a small cabinet houses the elevator controller. Gearless high speed elevators are traction elevators that feature a compact motor drive mounted inside the lift shaft. MRL elevators allow fast, powerful and energy efficient transportation. We are supplying MRL elevators / lifts with a speed 1 mtr./sec. with a load of up to 2000 kg. The main controller is installed on the top floor, next to the landing door. Like normal traction lifts we are using conventional steel cord ropes as hoisting cables in MRL elevators / lifts.

### Features:-

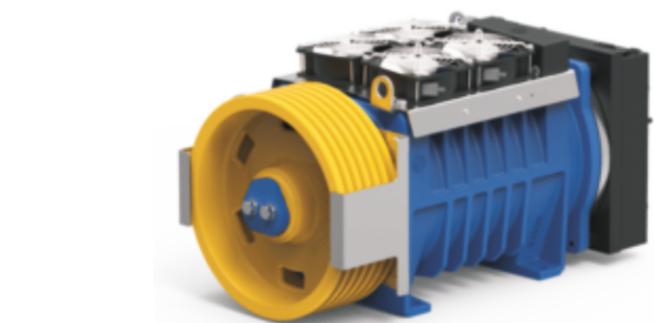

- ❖ Creates more usable space
- ❖ Use less energy 70-80% less than the standard hydraulic elevators
- ❖ Disc Brake for high accuracy & Safety
- ❖ Uses no oil (Traction Elevator)
- ❖ All components are above the ground
- ❖ Operates at faster speed
- ❖ Good for low rise to mid rise buildings
- ❖ Long range manual brake device
- ❖ Eco friendly and highly efficient
- ❖ Low vibrations and extremely smooth running
- ❖ Compact Design
- ❖ Low wear traction sheave

**Speed : 0.70-1.50 m/sec**

**Capacity : 4-26 Passengers**

Timing Belt

## Capsule Lifts

Capsule Elevators act as Architectural highlights on prestigious buildings. They can be called the ornaments of a building as they enhance its beauty and bring life into it. Their design, features and infinite options add its optimum travel comfort. They have aesthetically attractive interiors with large glass viewing panel. Capsule lifts demand specialized knowledge and we have the wide experience required to suit your concepts in capsule elevator operations. We provide all types of capsule lifts having PIA ultramodern design to provide a cosmic zone experience to the passengers. The design provides an extremely silent operation. It is also reliable and economical with minimum maintenance. The VVF close loop microprocessor controller incorporated with the system makes the whole operation very sophisticated. Capsule lifts can be installed on the exterior face of the building or in lobby. The installation of these lifts can totally change the look of the building.

The technology used in these lifts is state of the art. The range of capsule lifts is from 8 persons to 40 persons for a three-sided glass capsule, 5 sided glass capsule is also available for a minimum lift size of 13 persons. Octagonal and Round shaped lifts are also being designed. Bottom lit marble floors, well shaped roofs and cabin exteriors can be provided. When set in a glass capsule the beauty of the capsule is further enhanced. Apart from the cabin, all other specifications are the same as for other passenger lifts. Our capsule elevators are artistically designed to be used in offices, shopping malls, multiplexes and other prestigious buildings.

**Speed : 0.35 m/sec**  
**Capacity : 4-6 Passengers**

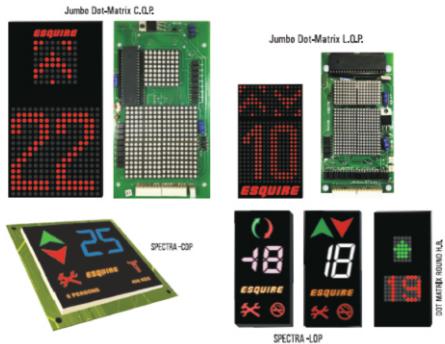

## Home Lifts

We all love a little luxury in our home, especially technology that makes life flow a little easier. **EXCELLENT ELEVATORS & ESCALATORS** home elevators are designed for customer specific needs with low cost & energy efficient vertical transportation system suitable for small business houses, kothies, bungalows & private apartments. It can add to the values of your home & also incorporates aesthetics & craftsmanship that can truly supplement the decor & comfort of your dream home

## Features:-

- ❖ Smooth Travel
- ❖ Maintenance Free
- ❖ Gear less & Machine Room less
- ❖ Single Phase Operation
- ❖ Capacity -320 Kg (5 Persons)
- ❖ Speed - U.S m/s
- ❖ Maximum No. of stops - 4
- ❖ Energy Saving
- ❖ Requires less floor Space
- ❖ Noiseless & Smooth Operation
- ❖ Aesthetically Designed Car

**Speed : 0.35 m/sec**  
**Capacity : 4-6 Passengers**

## Bed/Passenger lifts

Elevators are essential for ensuring the smooth flow of people and goods in the hospital. **EXCELLENT ELEVATORS & ESCALATORS** provides a full range of elevator solutions for staff, patients, visitors, supplies and equipment. When designing solutions for the medical environment, the objectives are utmost reliability, safety and energy-efficient, which lower the cost of ownership and the environmental impact. In hospital environments special attention is paid to hygiene so materials have been carefully selected to be aesthetically pleasing and easy to clean. Keeping in mind the **EXCELLENT ELEVATORS & ESCALATORS** provides highly demanding environment of patient transportation safe, smooth and reliable elevators for hospitals, with a solid set of features for optimum performance. Bed Lifts designed by us offers all car sizes as well as support and finishes to ensure the most hygienic conditions for patients and better usability and comfort for visitors, doctors and other professionals.

With the usage of progressive technology and innovative machines, we offer a broad assortment of Bed/Passenger Lift. Offered hospital lifts are engineered under the supervision of our trained professionals' facilitation it with full automatic doors and one-touch digital controls.

## Goods & Passenger lifts

Goods/Passenger lift is suitable for easy transporting of heavy goods from one store to another. This lift is designed and manufactured as per set industrial norms using the high-quality material with the aid of modern techniques. This lift features superb electronic control and requires less maintenance that allows the user to have an easy and tension free movement while moving through different floors. This lift is available in various specifications and can be customized as per requirements.

The Goods-Passenger Lift are used in the buildings in which there is a need to transport heavy large-size goods and/or persons. **EXCELLENT ELEVATORS & ESCALATORS** **Elevators / Lifts** are the perfect solutions in multilevel store buildings and production plants for efficient operations throughout the entire building

Speed : 0.30-0.50 m/sec

Capacity : 500-5000 kg

## Automobile Car & Industrial lifts

**EXCELLENT ELEVATORS & ESCALATORS** Car Elevators are designed for moving cars in condominiums, car showrooms, garages, homes and more. Our car elevators provide compact, easy-to-use basement or rooftop Parking king solutions for crowded places and high-density spaces at a fraction of the cost. Car elevators are an investment with the potential for instant payoff in modern urban developments, allowing for significant space savings and design flexibility for building planners and architects.

### Space Savings: -

Vertical bi-parting doors also require less lift well space, so you make a saving where it really matters, which is why world-wide this combination of doors is the primary choice.

Walls: Mild Steel painted or powder coated.

Ceiling: Mild Steel panel with adequate lighting.

Flooring: Mild Steel or Aluminium Chequered flooring.

Operating panel: In Stainless Steel finish with Scrolling floor indicator having Stainless Steel buttons with LED illumination.

Speed : 0.30-0.50 m/sec

Capacity : 2000-3000 kg

**Excellent**  
Elevators & Escalators

## Automatic Doors

Keeping ourselves updated with latest techniques, we are engaged in providing superb range of Stainless St Automatic Doors. These doors are fabricated in optimum quality material in compliance with well-defined global standards and values. The provided doors are available in various sizes and as per the specifications provided by our valued customers. All these products provided by us are exceptionally appreciated in the market for their elevated durability, high performance, smooth finish and outstanding designs. These products are rigorously inspected by our quality analyzers on numerous parameters to confirm their perfection. Moreover, this assortment is a perfect combination of innovation along with high strength which makes them of superior quality

## Dumb Waiters

A Dumbwaiter is a small freight elevator intended to carry objects rather than people. Dumbwaiters found within modern structures, including commercial, public and private buildings are often connected between multiple floors. When installed in restaurants, schools, kindergartens, hospitals, retirement homes or in private homes, the lifts generally terminate in the kitchen. The range of dumbwaiter lifts is designed, manufactured and installed to provide the easy movement of small goods efficiently between floors. Most commonly found in catering environments and hotels, The **EXCELLENT ELEVATORS & ESCALATORS** Dumbwaiter Lift is capable of travelling vertically up to 15 meters and can be supplied as either a standard product or specially made to specifications

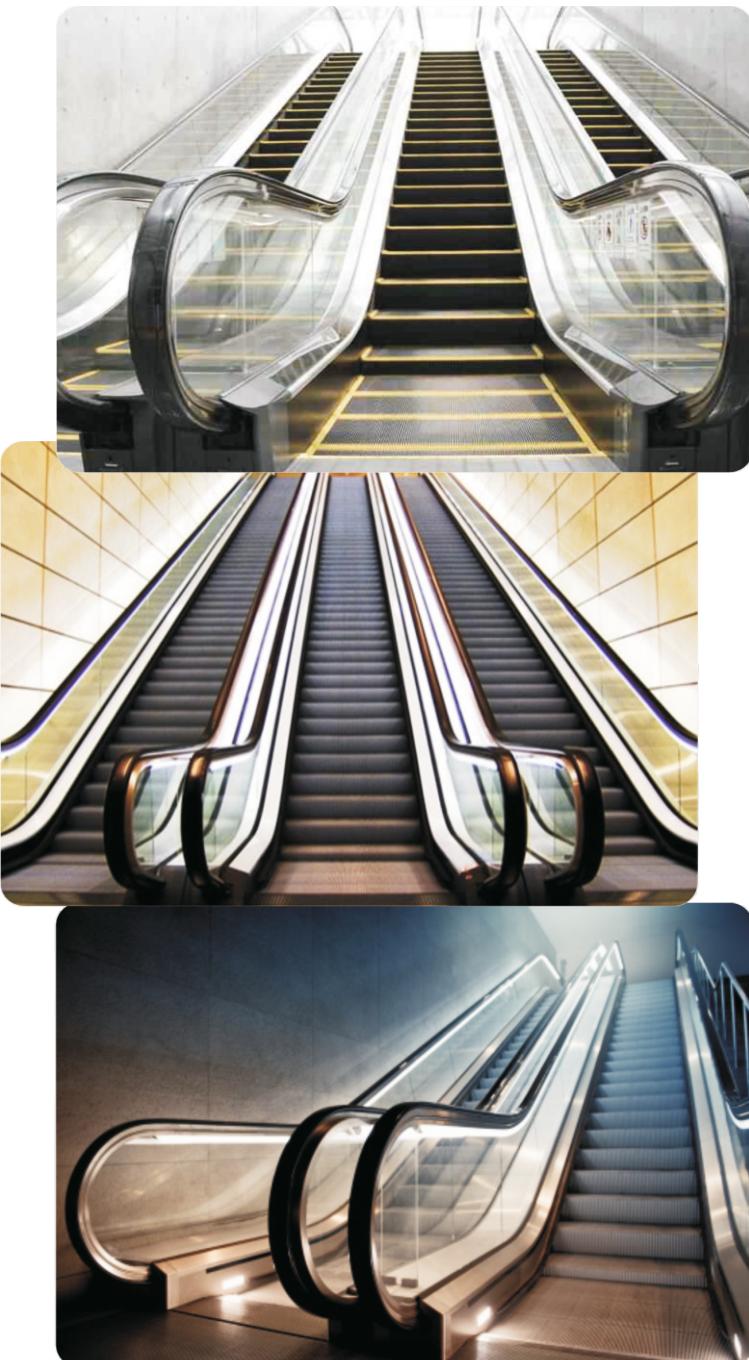

Small lifts installed in kitchen for transferring cooked hot food, dirty utensils, raw materials etc. to various pantries at all floors in multi storied hotels, large households, marriage halls, restaurants etc. Dumbwaiters for kitchens are usually made of stainless steel so that they are not affected by steam, hot food, water etc

Dumbwaiters are also used in hospitals and departmental stores to carry material to various levels in the building. These can be of 5.5. or M.5. The capacity of **EXCELLENT ELEVATORS & ESCALATORS** Dumbwaiter is from 125 kg to 150 kg.

Speed : 0.35 - m/sec  
Capacity : 100-500 kg

## Escalators

**EXCELLENT ELEVATORS & ESCALATORS** are designed for safety reliability noiseless operation & high comfort. **EXCELLENT ELEVATORS & ESCALATORS** Escalator's technology is from the world leader in the industry. **EXCELLENT ELEVATORS & ESCALATORS** have all advance features required for human safety & comforts. It has phase monitor, step chain contacts, Handrail entry contacts, comb contact, Emergency stop button, Step reversing fences which regularly monitors the working of the escalator & deactivate the brakes immediate in case of any obstruction/ malfunctioning in the system.

### Auto-start

**EXCELLENT ELEVATORS & ESCALATORS** escalator will be automatically switched on and off with the use of contact mats/ photocell sensors which are arranged at least 1300/ 1800 mm before the comb intersection line.

### VF Energy Saving System

It is a frequency inverter system that saves up to 60% energy. The escalator will be made to run at low speed during no-load conditions and automatically return to normal speed the moment load is sensed. This is activated by photocell sensors at the entrance

### Safety Brake on Main Shaft

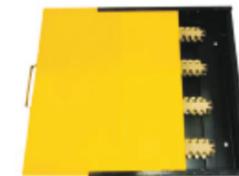

Fixed on main shaft, it will be actuated in case drive-chain is broken or speed is over 120%.

### Handrail Speed Monitor

There are two detectors integrated in the handrail support rollers at both left and right sides. When one or both handrails are broken or run under-speed, the system will be executed.

## SS Designer Cabins

Lift cabin is the unique space in a building that own. Based on the lift transports you up & down nature & function, the time spent in a lift is probably the most complex experience for any one in a building. We at **EXCELLENT ELEVATORS & ESCALATORS** are trying our best to make this experience a unique and sensational one. **EXCELLENT ELEVATORS & ESCALATORS** Elevator / Lifts is one of the leading company in India who is manufacturing and supplying world class designer cabins to suit your requirements. We have got a wide range of lift cabins with classic, modern designs and futuristic designs. The material used for the cabin is the combination of SS mirror & SS designer steel sheets. The designs in sheets vary from modern geometrical shapes to antique Egyptian designs with matt & glossy finish. Even the colours in these sheets vary from various appearances to different schemes i.e. gold, silver, copper, blue, green etc. The offered cabins are highly admired by our clients owing to its features such as corrosion resistant, high strength and great ambience. Moreover, we offer this cabin to the clients at pocket-friendly price.

## MS Powder Coated Cabins

MS Powder coating provides a long-lasting, economical and durable finish with a range of colour options available for nearly any type of metal. In addition, a powder coated surface will be more resistant against scratches chipping, wear and fading compared to other type of finishes

We are phenomenal when it comes to providing MS Powder Coated Cabins as we engage in manufacturing lifts that have been designed according to the customized needs. They help in making our day to day life convenient and are known for their intricate make. These lifts have been made keeping in mind the safety and interior satisfaction.

MS Powder Coated Cabin (Mild Steel Cabin) owing to their resistance to corrosion, perfect finish and longer serving life these mild steel cabins offered by us are high demand in the market. These cabins rigorously checked on various quality assurance parameters to ensure a zero defect range. The use of CAD & CNC programming with the latest assembly and finishing techniques brought EXCELLENT ELEVATORS & ESCALATORS Cabin designs to accuracy and quality for never the less demanding customers.

## MS Colour Shades

These sheets are provided with Metal coating which increases the life of the product and make them water proof. We provide much thicker powder coating when compared to liquid coating. We have got a wide range of sheets with different attractive colours

## Safety

### Load Cell

The load cell we are using is a world class Product with design to obtain a maximum sensibility and is to be installed in cables. It is also auto calibrated with a miniaturized design.

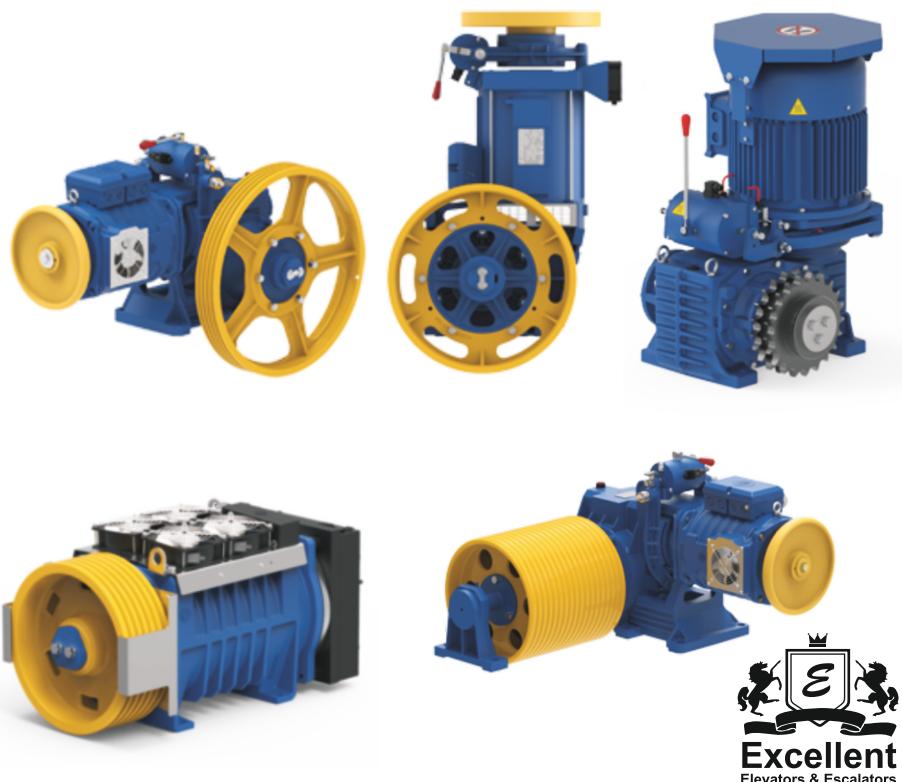

### Lift Safety

We at **EXCELLENT ELEVATORS & ESCALATORS** are very much concerned about the safety features of the lifts. This gives passengers a dependable ride and reduces the chances of accidents. Some of these are Door Sensor Safety Door Interlocking Governor Safety, Emergency Alarm, Emergency Light, Automatic Rescue Device System and various types of Safety Sensors are there in our lifts which detect the passengers inside.

## Geared /Gearless Machines

Geared Machines are designed with a gearbox which is found attached to the motor that is used to operate the wheel and thus, move the ropes. Geared machine technology is well trusted for more than one hundred years but in terms of maintenance and energy, a geared traction elevator is considered average compared to other latest designs. Along with geared machines we provide high efficient gearless machines having smooth running, reliable and more efficient machines. Installation is flexible with or without machine room for up to 40% energy saving compare to traditional traction machines. It is low energy consumption which lower overall carbon footprint across the Elevator's life cycle. Dual circuit brakes of Gearless machine ensure maximum safety against uncontrolled car movement and comprehensive quality control to provide best product. This machine is installed with matched Inverter and all necessary parameters which are independently designed, developed & manufactured for premium quality elevators

## Control Panels

Lift Control Panel is precisely manufactured with the help of advanced technology utilizing high grade components under the strict guidance of our experts. Lift control panel is properly checked under the strict observation of our quality checkers and tested under a variety of parameters. The control system is based on low-energy multiprocessor technology. We are supplying two types of control panels i.e. Down Collective & Collective-Selective type.

### Features:-

- ❖ Durability
- ❖ Long service life
- ❖ Sturdy construction
- ❖ Temperature resistance
- ❖ Quality tested
- ❖ Easy installation
- ❖ Rust proof

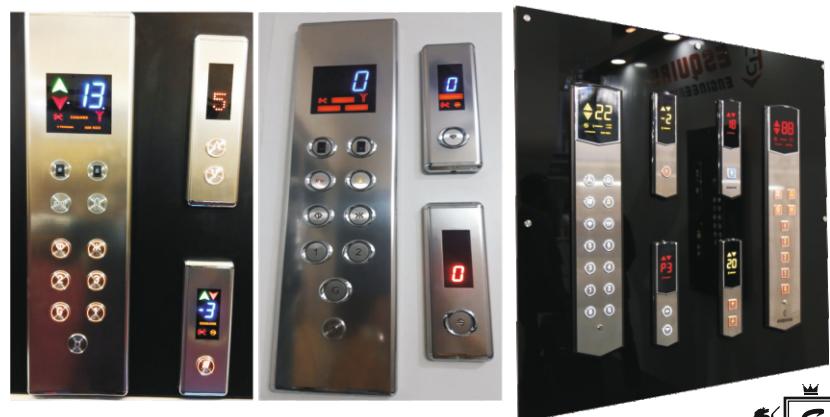

## COPS / LOPS

The COPS & LOPS are available in with many designs & colours combinations which are in harmony with the car interiors. It includes square/Round Push-buttons with illuminated LEDs to provide you added visual confirmation & a digital up/down arrow/LCD Display with floor indication. Being a quality oriented organization; we are involved in providing a supreme quality range of Elevator Operating COPs/LOPs. We are providing standard Landing Operating panels as well as Stylish stainless steel panel with push buttons. The stainless steel Car Operating Panel is designed for clear and reliable communication. Protruding push buttons are used for easier destination selection for all passenger groups. Elegant and stylish with choice of mirror gold, mirror natural and dotted sheets can be combined with different imported buttons and choices in display, one that will easily impress.

### Features:-

- ❖ Special fashion design and marvellous look
- ❖ Good touch sense and beautiful LED illumination
- ❖ Easy installation
- ❖ Button: Stainless steel with special filing process, more beautiful and metal color
- ❖ Voltage: DC 12-36V
- ❖ Illumination Colour Bright yellow, fashion orange, ruby red, ivory white, venetian blue and emerald green etc.
